EDUCATION

Kasetsart University, KamphaengSaen Campus
B.Eng. Faculty of Engineering
Major in Computer Engineering

SKILLS

- Learning a New Language for Code
- Design System
- Object-Oriented Programming (OOP)

OBJECTIVE

I am looking forward to gaining practical work experience to expand my knowledge and explore learning opportunities beyond the classroom environment. My goal is to enhance my skills and abilities through real-world work experiences.

EXPERIENCE

Teaching Experiences

Teacher Assistant (2 Terms) - Python 2022

- Assisted the instructor in teaching Python and provided support to students for two terms.

Teacher Assistant - Object-Oriented Programming (OOP) 2023

- Supported the instructor in teaching and facilitated understanding of Object-Oriented Programming concepts.

Research Experience from semester 2, 2023 to the present

Research Assistant - ML and AI

- Led the team to achieve goals and made significant contributions to advancements in the cassava disease project

PROJECT

Database-project

- MVC-Compliant Application Development

Web Development using Node.js & Express.js

- Implemented basic HTTP methods, such as GET, POST, PUT and DELETE

Animal Classification Project with CNN

- Developed a CNN model to classify animals from images.
